

Martha's Vineyard

REDCAR

Client • Dukedom Leisure

The three buildings in which Dukedom Leisure chose to site their new late night venue had originally been designed as a large electrical discount store. We were asked to combine and convert these buildings to provide a warm and welcoming interior with all the features and facilities to be expected of a night club and restaurant.

The work entailed considerable steel work as well as the usual installation of mechanical and electrical services, joinery, furnishings, decorations and finishes. Completion was on time in just 12 weeks.
