

Forno Vivo

WALLINGFORD

Client • Yates Group Limited

Some elements of the original Post Office décor have been retained in this attractive conversion into a contemporary designed Pizzeria, a new concept for Yates. The copper-topped bar was built using raised and fielded cherry wood panels from the Post Office walls and the cornice is also original. A striking feature of the restaurant is the wood burning oven which was built and installed by our own skilled tradesmen. The entire conversion was completed within 16 weeks.
