

La Zisa Restaurant

HORNCHURCH

Client • La Zisa Limited

Starting from a developer's shell, the complete fit-out to form a restaurant on two floors was finished in just 9 weeks. Works included all finishes, feature ceilings and mechanical and electrical installations for the trading area on the ground floor together with the formation and fit-out of the toilets on the first floor.

Joinery included a bar and backfitting and an extensive shop-front with summer opening windows facing the busy Hornchurch high street.
